

# Polycom® SoundStation2™

## Features and Benefits

With the SoundStation2, Polycom sets the new standard for everyday business conferencing. With truly remarkable voice quality, a large graphical display, smart technology, such as Dynamic Noise reduction, and traditional telephone features, SoundStation2 improves the performance and increases the productivity of everyday conferencing.

### Remarkable Voice Quality. The New Standard in Everyday Conferencing.

Polycom Acoustic Clarity technology	<ul style="list-style-type: none"><li>• Allows natural, interactive two-way conversations (full duplex). Users don't have to wait for speakers on the far end to stop talking before breaking into a conversation</li></ul>
Remarkable Voice Quality	<ul style="list-style-type: none"><li>• Users can speak in a normal voice up to ten feet away from the console</li><li>• More productive calls – no need to repeat yourself</li><li>• Three cardioid microphones provide 360-degree coverage so that everybody in the room can be heard clearly</li></ul>
Dynamic Noise Reduction (DNR)	<ul style="list-style-type: none"><li>• Automatically reduces room background noise – from fans, projectors, heating and air conditioning – for clearer sound and more efficient conferencing</li></ul>
Intelligent microphone mixing	<ul style="list-style-type: none"><li>• Automatically selects the microphone closest to the person speaking, eliminating extraneous background noises</li></ul>
Microphone expandability (EX version only)	<ul style="list-style-type: none"><li>• Optional extension microphones increase coverage for larger size rooms</li></ul>
Backlit graphical display	<ul style="list-style-type: none"><li>• Convenient, easy access to important call information – phone number, number called, duration/progress of call and Caller ID</li><li>• Familiar, easy to use telephony features – phone book, conferencing, mute, and hold – eliminate user confusion and need for training</li></ul>
Auxiliary Input/Output Jacks	<ul style="list-style-type: none"><li>• 2.5mm jack: Provides connection to other communication devices, such as a mobile phone, for hands-free conferencing</li><li>• RCA jack: Allows connections to other peripherals, such as an audio recorder</li></ul>
Single-cord connection to phone console	<ul style="list-style-type: none"><li>• Eliminates cable clutter on the tabletop</li></ul>
Easy to use and install	<ul style="list-style-type: none"><li>• No training required, connects into any analog phone jack</li></ul>
